By Associated Press.

WASHINGTON, March 6.—Representative Magee, Republican of New York, a member of the committee which investigated aviation expenditures during the war, told the House today that not one American-built battle plane or purely bomber plane was produced during the war from the expenditure of more than a billion dollars for aircraft.

"The Liberty motor," he said, "was the only achievement of merit of the American air service in the United States."

The 215 American-built Defiant planes sent to France," he said, "might be used for light day bombing."

He said these planes were "awkward and dangerous in service."

DEFEAT OF LEAGUE MEANS A BIG NAVY, ANALYST DECLINES

WASHINGTON, March 6.—Secretary Daniels told the House Naval committee today he would recommend a naval building program for the next year larger than that proposed by the general board of the navy, but is not satisfied at this session of Congress.

Without final recommendation, the secretary added that if this country rejected membership in the League of Nations, it would be forced to build a fleet of battleships and cruisers for another three-year program of construction.

Reiterating his statement of last year that "we must have a league of nations by which every nation will help to preserve the peace of the world without competitive naval building or we must have incomparably the biggest navy in the world," Mr. Daniels declared there was no middle ground.

MUCH BEER WASTED

Ninety-eight Barrels Empty Into the Rockwood River at Rockwood.

ROCKWOOD, March 6.—Ninety-eight barrels of real beer were dumped into the Rockwood river by the Rockwood Brewing company Monday morning, when notice of sale of the property was posted by the sheriff.

Under the provisions of the national prohibition amendment the beverage could not be sold as a part of the property of the concern, and the authorities took this means of disposing of it.

The property of the Rockwood Brewing company will be sold at public sale on March 18, to satisfy judgments held against it by Penrose Wolf and James C. McSpadden, of Rockwood. Prior to the advent of prohibition the brewery was one of the biggest and strongest financially of any in the county. The beer destroyed was valued at several thousand dollars.

Since the sale of beer was prohibited during the war by President Wilson, and up until the national prohibition law went into effect on January 16th last, the establishment was kept ready for operation on short notice, the beer running almost continuously. Now the entire plant has been closed down.

To conform to the requirements of membership in the Women's Auxiliary units of the American Legion, the Central News correspondent at Washington, the local unit is securing from its members information showing their relationship to a service man or woman who is entitled to membership in the legion. MANY FARMS IN FAYETTE COUNTY LEASED FOR OIL AND GAS DRILLING TESTS

Manufacturers' Light & Heat Company Options Thousands of Acres.

WORK GOES ON QUIETLY

According to a report here there are to be big gas and oil operations begun in the immediate vicinity of this city before the end of summer. The Manufacturers' Light & Heat company of Pittsburgh, it is understood, has leased up much territory in many of the townships of Fayette county, including Connellsville, Dunbar and Bullskin. The Greenboro Gas company and others have also secured leases.

The Manufacturers' Light & Heat company has many thousands of acres of land leased in Pennsylvania and West Virginia. The Greenboro has already drilled wells in some of the surrounding country. In addition to the above, local persons have organized companies to sink wells almost in the city. Dawson companies, recently organized, are also preparing to drill.

The work of leasing for the big companies has been done quickly. Agents have been circulating through Fayette and Westmoreland counties for months. There are some who are still hold-outs.

Many of the leases recently transferred to the Manufacturers' Light & Heat company by its agents have been entered on the county court records, very much alike in form. The leases call for work on the first wells to be drilled within six months. In case this is not done the leases agree to pay the owner a monthly rental.

George P. Hoover, former county commissioner, and several associates have leased about 5,000 acres in Georges township.

The Creek Hill Oil & Gas company has secured leases on four areas in Fayette and Westmoreland counties, aggregating 185 acres. Lease No. 1 comprises 37 acres in Lower Tyrone township, about three miles from Dawson. Lease No. 2, 91 acres, is located near Jacobs Creek. Lease No. 3, 249 acres, is situated in Lower Tyrone township, Fayette county, and East Huntingdon township, Westmoreland county. No. 4 is also in Lower Tyrone township. It embraces 18 acres.

The Connellsville Oil & Drilling company, which recently secured leases in Connellsville and Bullskin townships, has located its first well on the Nathan Gilmore farm along the Snake hollow road and the second on the J. C. Doolittle farm in Bullskin township. The company has not yet begun operations.

The local gas and oil companies have one down 800, another 600 feet.

The United McKeesport Oil & Gas company, of which J. M. Grey and A. C. Herwick of Connellsville are trustees, has reached a depth of 800 feet in its first well in the Walnut street location at Versailles, while a second well on the Auburn Terrace plan in Snake hollow, McKeesport, is down 650 feet. Recent good wells coming in in these areas make prospects look bright for the local company. Five of the 10 wells which came in during February are near the holdings of the United.

The company is preparing to drill to 1,000 feet. The policy will be to drill near producing wells.

Meets With Council.

Major Brown of Washington, D. C., met with city council and other city officers this afternoon at the city hall to discuss venereal diseases. He arrived in Connellsville this morning to take up the work relative to their scope in this city.

Includes Former Members and Young Men Who Have Had Military Experience; Veterans of Foreign Wars and Legion Members Backing Movement.

The progress made in the reorganization of Company D, Tenth Regiment, National Guard of Pennsylvania, is very encouraging to those who are interested in this activity. The meeting at the armory last evening demonstrated that the former service men of Connellsville and vicinity are heart and soul behind the movement which is intended to insure Connellsville being retained as the home station of this well-known unit of a famous regiment. Proof was at the same time given that the young men of the community appreciate the opportunity they have to assist in perpetuating the fame of an organization in which every loyal citizen takes a just pride.

A number of young men signed their intention to enlist by attaching their signatures to the list of prospective recruits who were directed to report for examination and administration of oath as soon as orders have been received to proceed with actual enrollment. Including those who signed up last evening about 25 names have already been secured. With the exception of but one or two all of these young men have had previous military experience, several overseas with the American Expeditionary Forces, including a member of Company D, 11th Infantry, and several with other organizations. Still others received training in the camps in the United States and were anxiously awaiting sailing orders at the time the armistice was signed. Still others include members of Company G, Third Regiment, Reserve Militia. The address of Major R. S. McKee to the high school students is reported will be the means of inducing a number of well-known young men of that institution becoming identified with the company.

At the meeting of Walter E. Brown camp, Veterans of Foreign Wars, held at the armory, many members present gave expression of interest in the reorganization of Company D. The common consent it was agreed that each member urge upon persons of their acquaintance the importance of recruiting the company to its full strength just as quickly as possible and from that class of young men who will appreciate the responsibility resting upon them to preserve the best traditions of this unit. At the general meeting of the boosters it was reported that the members of Milton LaFayette Bishop Post, The American Legion, will just as enthusiastically carry out the same program with a view to enrolling members of Company D.

Following the meeting of the veterans an army lunch was served on the company mess tables in the basement of the armory which revived the memories of former days in the service by the 40 men who partook of the feast with great relish. D. The report was under the direction of Captain Andrew R. Skomph, assisted by Harry Rogers and Emmet Hicks.

The Solsson.
"A Gun Fights Gentleman"—With Harry Carey, the ace of the saddle and screen idol of thousands, in the leading role, is being shown today. The story of the play revolves about "Cheyenne Harry" Buford, who has inherited from his father a ranch in Wyoming of which he is deprived by John Merrill, Chicago packer, through legal proceedings. Harry, unaccustomed to the ways of the big city and the social standards of the ultra-rich, goes to Chicago with the hope of obtaining justice from Merrill, but the net result of his trip is a humiliating experience at the hands of the magistrate's young daughter.

The Paramount.
"Water, Water Everywhere"—In which Will Rogers is seen in the role of Billy Fortune, is being presented today. The story of a man's fight against the longing for liquor, the story of a friend's sacrifice for the thing he held dearest in life, to aid him and the girl he loved, the story of the cattle country's many ills, which holds courage and fortitude, or self the prime virtues—these are in the theme of this Goldwyn picture.

Why Colds Are Dangerous.
You are often told to "beware of a cold," but why? We will tell you: Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. People who contract pneumonia first take cold. The longer a cold hangs on, the greater the danger, especially from the germ diseases, as a cold prepares the system for the reception and development of the germs of consumption, diphtheria, scarlet fever and whooping cough. The quicker you get rid of your cold, the less the danger of contracting one of these diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take.—Adv.

URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading
Druggist of Covington, Ky., Who Has Made
Special Study of Catarrh.

**Says: Inflamed Nostrils
Invite Influenza**

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Aroline mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffling and smelling, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Aroline—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and sniff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

SATURDAY EVENING, MARCH 6, 1920.

MUST BE AS JUST AS THEY WERE
FAITHFUL.

It is regrettable that the ex-service
men's organizations have not been
able to come to an understanding as
to the form of legislation desired to
be enacted by Congress in their be-
half. For several days past, hearings
have been held by the House Ways
and Means Committee for the purpose
of ascertaining the views of the
veterans upon the subject. There has
been such a wide divergence of opin-
ion among the various organizations,
and the claims of each have been
presented in such a spirit of rivalry that
the committee is at loss to know just
what is wanted in the form of legisla-
tion, or what measure the rank and file
actually desire should be enacted.

But still more to be deplored is the
disposition displayed by a part of
some of the members of the commit-
tee to give the whole subject of sol-
dier legislation a political coloring or
significance. "Had the soldiers' or-
ganizations come to a complete under-
standing and the members of the com-
mittee, before they appeared before the
committee, and presented a united front,
their cause would certainly have been
materially strengthened and greater
progress would have been made in the
direction of embodying their recom-
mendations in a law. At the same
time those members of Congress who
are inclined to make political capital
out of the situation, and have had
but poor opportunity to present their
own or their party's interests. As the
matter now stands there exists con-
siderable doubt as to whether the con-
flicting claims of the several soldiers'
organizations, and the political ambi-
tions of the members of the commit-
tee, can be so harmonized that a solu-
tion of the problem can be reached
which will be just and fair to the sol-
diers.

In the controversy that has arisen
the right of the young men to be
compensated in part for the years of
two given from the best part of their
lives to serving their country, is ap-
parently being forgotten. As Commander
D. C. H. of The American Legion says,
the former soldiers are not asking a
gift or gratuity, but they are asking a
fair return for the service they ren-
dered and the sacrifices they made.
The value of that service cannot be
measured in terms of dollars and no
effort is being made to so measure it,
but there is the very generally ex-
pressed view that some form of retri-
bution should be provided for the
losses sustained in wages and oppor-
tunities while in the service.

Compared with munition factories and
shipyard employes who earned \$10 to
\$15 per day of eight hours, and the
host of profiteers who grew rich at the
expense of both the soldiers and their
friends "back home," the veterans of
World War I are entitled to a day's
pay for every day they have spent in
the service of their country.

Over a year has now passed without
recognition being given to the claims
of the service men. Having
heard what the men themselves have
had to say about the matter, it is the
plain duty of the Congress to take
action to correct the situation and get
down to the business of settling the
question. Having been mild and prodi-
gally generous to the army and navy
contractors of all kinds to come
home, Congress can do no less than
be as generous to the defenders of our
country as the taxpayers are willing
they should be so treated. Above all
Congress must be as just as the former
service men were faithful.

State chairman Sterling of the Bar-
tleson committee has been expected
to make a statement to the effect that
the success during the campaign for
delegates to the national convention, ex-
cept possibly the recent Louisiana
victory, was due to the Palmer-Mc-
Cord-Sterling ticket.

A Philadelphia judge has declared
Bergdoll, the wealthy draft dodger,
to be a "morbid coward." Does that defini-
tion admit him to the title of Ford class?

Is West Virginia willing to form a
part of the new South with the
gallantly refusing to recognize the right
of suffrage to women?

Take courage. The Groundhog
term of office lasts but seven days
more.

The purple strains of the Italians of
Connellsville loosen quickly whenever
there is a pull at the rear strings.

But two weeks remain within which
to figure out how much you owe Uncle
Sam for the privilege of having owned
the world a living day in 1919.

You have the weatherman's permis-
sion to enjoy a brisk walk in the cold
March air tomorrow while you travel
to and from church services.

With Mrs. Wilson honoring the
candidacy of Adams Mitchell Palmer,
and the President's daughter champion-
ing the cause of Crown Prince Mc-
Adoo, for presidential honors, Wash-
ington is due to have much the best
of both worlds and summer season open
before the war.

Nature has decreed that Connelville
shall remain a desert. Upon the heels
of the exhaustion of the cooling coil
comes the promise that we will soon

be surrounded by a forest of oil and
gas derricks. May they all find root
in a "pay streak."

Watching the old town grow will
be interesting; helping in the growth
will be both interesting and profitable.

How would you like to tackle Mc-
Adoo's job of trying to change the
President's mind?

Is the pull to protect the waters of
Indian Creek from contamination one
of the fruits of the "dry" season?

Little dependence will be placed
upon the "first" spring signs, like
robins, bluebirds and chicks. Wait un-
til the makers of the "first garden"
begin to make report of their activi-
ties.

He wonders what it's all about!
The clanging of heavy steel on steel.
The grinding of the wagon wheel.
The smoke from chimneys pouring out.
The sound of feet as men go by—
And very often, so do I.

He looks upon the world and sees
Fraud women over tired by care,
And hark and hurry everywhere,
And tries to solve these mysteries.
Why old men live and young men die,
And very often, so do I.

He is so very young that he
Knows nothing yet of caste or creed,
Or any difference of breed.
From prejudices he's wholly free.
He hears men sneer and wonders why,
And very often, so do I.

He'll talk with diggers in a ditch
And never see the game and dirt.
Or raged clothes and tattered shirt.
He'll talk with them as with the rich.
Yet wonders at proud heads held
high—
And very often, so do I.

He wonders what it's all about!
The clamor and the clang of strife,
And all the changing scenes of life.
The rights turned on and lights turned
out.
Why some men smile and others
sigh—
And very often, so do I.

NORWIN THE VICTOR

Team Now Champion for Championship

In W. P. L. League.

The Connelville high school basketball team, playing a poor game, last night was defeated by the Norwin high school, 30-26. The game was witnessed by a large crowd which had turned out in anticipation of a closer contest.

From Egypt comes inspiration for hats that cling close to the head and which are featured in those tones so dear to the land of the Nile—sage, jade, lemon and saffron. Also in urban effect are models swathed or draped in the popular hatavia cloth, cellophane or viscose.

Of luscious, slipper, milan and other effective straws are the large and medium sized styles. Sometimes straws are combined with fabrics; in other instances fabrics appear alone. In ornamentation each model shows artistry of a high order.

A PROCLAMATION

Whereas, the people of our city have been led to purchase so-called remedies from which they have received no benefit whatever, and having thus wasted so much hard-earned money, it has come to pass that they know not what to believe.

Inasmuch as this unsatisfactory state of affairs exists, **KNOW, THEREFORE, ALL PERSONS** who are in need of such a medicine that we will supply them with **VINOL** on a **POSITIVE GUARANTEE** that if it does not succeed in benefiting them we will refund the entire amount of money paid us for it.

There is no one medicine that will cure everything, but there are some we know to be honest, reliable, and of great curative value. Such is **VINOL**; it is not a secret medicine—just peptonate of iron and all the curative extractives of cod liver oil, combined with other body-building and strength-creating ingredients. The complete formula is on each label. We **KNOW** that it should benefit every one who uses it.

Could any offer be more fair than this? You are ill; we offer you medicine which we believe will help you, and if it does not we will return your money. Is there anyone foolish enough not to accept this offer? You owe it to your family, to your friends, and yourself to try this medicine which we give you our pledge is a genuine cod liver and iron preparation of great merit.

We unhesitatingly recommend **Vinol** as a **Body Builder and Strength Creator for Feeble Old People, Delicate Children, Frail Women, All Run Down Persons, and Those Needing a Good Tonic after any Severe Illness, and for Coughs and Colds.**

Do you think we could afford to lend our name to its praises, as we have been doing in the newspapers, if we did not know **VINOL** to be an honest and unusually valuable remedy for the ills for which it is prescribed? We certainly could not; we therefore ask you, our neighbors, friends and acquaintances to accept our assurances that this is a genuine offer, and that any and all persons who need a medicine of this character should feel a sense of security in accepting it.

Call and get a bottle to-day. You won't be sorry. **LAUGHEEY DRUG CO., CONNELLSVILLE; DUNBAR DRUG COMPANY, DUNBAR, AND DRUGGISTS EVERYWHERE.** You can get **Vinol** at the Leading Drug Stores in every town and city in this State.

Velvety skirts, fluffy effects like Grandmother's bustles and sleeves growing ever shorter are also shown in the tuffed, braided and embroidered taffetas so popular in navy blue with a few touches of tender, fawn and peacock tints.
